Contents Volume 35, 1988

Research Papers

The growth rate of submarine volcanoes on the South Honshu and East Mariana ridges
N.C. Smoot (NSTL, MI, U.S.A.) 1

Petrogenesis of andesitic lavas from Mangatepopo Valley and Upper Tama Lake, Tongariro Volcanic Centre, New Zealand
D.B. Patterson (Wellington, New Zealand) and I.J. Graham (Lower Hutt, New Zealand) 17

Plutonic rocks from Tahiti-Nui caldera (Society Archipelago, French Polynesia): A petrological, geochemical and mineralogical study
J.-M. Bardintzeff (Orsay, France), H. Bellon (Brest, France), B. Bonin and R. Brousse (Orsay, France), and A.R. McBirney (Eugene, OR, U.S.A.) 31

Mafic-crystal distributions, viscosities, and lava structures of some Hawaiian lava flows
S.K. Rowland and G.P.L. Walker (Honolulu, HI, U.S.A.) 55

Tentative estimate of bulk permeability of basement rocks from heat discharges in a geothermal field
M. Sekioka (Kanagawa, Japan) 67

Water, carbon dioxide, and hydrogen isotopes in glasses from the ca. 1340 A.D. eruption of the Mono Craters, California: Constraints on degassing phenomena and initial volatile content
S. Newman, S. Epstein and E. Stolper (Pasadena, CA, U.S.A.) 75

Trace element geochemistry of the Inyo volcanic chain, California: Evidence for multiple magma sources, magma mixing and post-eruption loss of boron
M.D. Higgins (Hamilton, Ont., Canada) 97

Origin of particulate potassium in Mt Etna emissions before and during the 1983 eruption
J.P. Quisefit and G. Bergametti (Paris, France), D. Tedesco (Gif sur Yvette, France and Naples, Italy), J. Pinaart and J.L. Colin (Paris, France) 111

The influence of loading by lavas on the siting of volcanic eruption vents on Mt Etna
J.B. Murray (Chambéry, France) 121

Vertical ground deformation on Vulcano, Aeolian Islands, southern Italy: Observations and interpretations 1976–1986
M. Ferri (Ercolano, Italy), M. Grimaldi (Naples, Italy) and G. Luongo (Ercolano and Naples, Italy) 141

Etude géochimique de la nappe du Dogger du Bassin Parisien
G. Michard and J.-P. Bastide (Paris, France) 151

Short Notes

Subsidence of Puna, Hawaii inferred from sulfur content of drilled lava flows
J.G. Moore (Menlo Park, CA, U.S.A.) and D.M. Thomas (Honolulu, HI, U.S.A.) 165

Atmospheric contribution of volcanic sulfur vapor and its influence on the surroundings vegetation
F. Le Guern (Gif sur Yvette, France), R.X. Faivre-Pierret (Grenoble, France) and J.P. Garrec (Seichants, France) 173

Research Papers

Effect of tensile stress concentration around magma chambers on intrusion and extrusion frequencies
A. Gudmundsson (Reykjavik, Iceland) 179

Optimum station distribution to monitor seismic activity of Teide volcano, Tenerife, Canary Islands
M. García-Fernández (Zurich, Switzerland), A. Kijko (Warsaw, Poland), J.C. Carracedo and V. Soler (La Laguna, Tenerife, Spain) 195

Buchitic metagreywacke xenoliths from Mount Ngauruhoe, Taupo Volcanic Zone, New Zealand
I.J. Graham, R.H. Grapes and K. Kifle (Wellington, New Zealand) 205

Identification of a hidden thermal fissure in a volcanic terrain using a combination of hydrothermal convection indicators and soil-atmosphere analysis
M. Aubert (Clermont-Ferrand, France) and J.-C. Baubron (Orleans, France) 217

Sulfur isotope ratios of Icelandic lava incrustations and volcanic gases
P. Torssander (Reykjavik, Iceland and Stockholm, Sweden) 227
Geothermometry on fluids circulating in a carbonate reservoir in north-central Italy
A.A. Minissale and V. Duchi (Florence, Italy) 237
Relations of cinder cones to the magmatic evolution of Mount Mazama, Crater Lake National Park, Oregon
L.M. Prueher and A.R. McBirney (Eugene, OR, U.S.A.) 253
Mantle-derived spinel lherzolite xenoliths from the Deccan volcanic province (India): implications for the thermal structure of the lithosphere underlying the Deccan Traps
A.B. Mukherjee and S. Biswas (Kharagpur, India) 269

Book Review
The Volcano Letter, re-edited by R.S. Fiske, T. Simkin and E.A. Nielsen — A.R. McBirney 277

Research Papers
Petrogenesis of Tauhara dacite (Taupo Volcanic Zone, New Zealand) — Evidence for magma mixing between high-alumina andesite and rhyolite
I.J. Graham (Lower Hutt, New Zealand) and T.J. Worthington (Wellington, New Zealand) 279
Magmatic and phreatomagmatic volcanic activity at Mt. Takahe, West Antarctica, based on tephra layers in the Byrd ice core and field observations at Mt. Takahe
J.M. Palais (Columbus, OH, U.S.A.), P.R. Kyle and W.C. McIntosh (Socorro, NM, U.S.A.), and D. Seward (Gracefield, New Zealand) 295
Structural control of young basaltic fissure eruptions in the plateau basalt area of the Arabian Plate, northeastern Jordan
I. Guba and H. Mustafa (Irbid, Jordan) 319
Caldera formation at Volcán Colima, Mexico, by a large Holocene volcanic debris avalanche
J.F. Luhr (St. Louis, MO, U.S.A.) and K.L. Prestegaard (Chicago, IL, U.S.A.) 335
Vesicle zonation and vertical structure of basalt flows
J.C. Aubele and L.S. Crumpler (Providence, RI, U.S.A.), and W.E. Elston (Albuquerque, NM, U.S.A.) 349
